How do I make a correction to an application?
In some cases, you may drop, withdraw, change, or reschedule a course that you originally submitted on your application. Also, course numbers or titles may be different than what you originally entered. If this occurs, to avoid delays and confusion during the payment process, you must correct your originally submitted application as soon as possible.

Correcting application information:
Select the appropriate application from the My Application History table on your Dashboard. You will be able to edit any application if it is in one of the following statuses:

- “Saved - Not Submitted”
- “Submitted - Incomplete”
- “Submitted - Pending Review”

Make your desired changes, proceed to Step 4 of the application wizard, and click “Submit” to resubmit your application for review.

For applications in any other status, if the information originally submitted on your application changes because you drop, withdraw, or reschedule a course, you can cancel your application by clicking the application number on your My Application History on your Dashboard and following the instructions under Cancel Application on the right hand side of the screen.

For all other types of changes you must notify EdAssist immediately by contacting a customer care representative so that your application can be updated. The customer care representative will provide you with instructions or next steps.
If your application is in a paid status or is being processed for payment, a change cannot be made. Contact a customer care representative for further instructions.

If I submitted my application for classes beginning on or after January 1, 2015 for the 2014 maximum but my expenses are greater than the 2014 maximum, will I need to correct my application to increase the requested amount or will the amount be increased automatically due to the increase in the 2015 maximum benefit? EdAssist will review your application and manually adjust the amount in this situation only. However, to ensure there are no manual errors, it is recommended that you adjust the amount requested if your application is in one of the 3 statuses above.

What happens if I leave Houston Methodist while attending courses?
If your employment ends before the successful completion of a course and payment of the reimbursement benefit, you are not eligible for reimbursement for that course. To receive reimbursement, you must remain employed through the duration of your courses and at the time of reimbursement.
