SECOND ANNUAL
Ethanol Ablation of Complex Arrhythmias Training
bit.ly/EACAT2023  #EACAT2023
Course Director: Miguel Valderrábano, MD
This course will provide a practical overview of ethanol ablation techniques for atrial and ventricular arrhythmias. It will include formal didactics from experts around the world as well as observational cases covering venous mapping techniques to collect electrical signals from cardiac veins. This course is intended for electrophysiology physicians and fellows, and interventional cardiologists.

EIGHTH ANNUAL | Houston Heart Failure Summit
#HHFS2023
Course Directors: Ju H. Kim, MD, and Imad Hussain, MD
This program provides a comprehensive update on the prevention, diagnosis and management of heart failure. Experts in the field will present topics and engage in panel discussions and case-based presentations. Sessions will cover the most recent novel treatments, including TAVR, for chronic heart failure, pulmonary hypertension and hospital admissions. Participants will acquire the tools to improve the care of patients with heart failure.

EIGHTH ANNUAL
Adult Congenital Heart Symposium
#ACHD2023
Course Director: C. Huie Lin, MD, PhD
This popular annual event is a unique opportunity for patients, family, caregivers and their physicians to learn more about care and treatment options from leading adult congenital heart disease experts. The event is split into two sections: a CME event for health care professionals, and networking sessions for patients and caregivers.

12th ANNUAL | Re-Evolution Summit
#Re-EvSummit2023
Course Director: Mahesh Ramchandani, MD, FRCS, FACS
This program’s target audience is narrowly focused on cardiovascular health care providers interested in minimally invasive and robotic cardiac surgery. The highlight of Re-Evolution Summit is the hands-on skills lab in MITIE, complemented by didactic lectures and panel discussions.
Continuing Education for Health Care Professionals

SEVENTH ANNUAL | Cardiology for the Noncardiologist
#CNC2023
Course Directors: Alpesh R. Shah, MD and William A. Zoghbi, MD
This course covers a core cardiology curriculum and updates for general cardiology. Non-cardiology health care providers learn to identify common cardiovascular risk factors and understand new guidelines and approaches for cardiovascular disease.

SECOND ANNUAL | ISEVS Symposium
#ISEVS2023
Course Directors: Alan B. Lumsden, MD; Zvonimir Krajcer, MD; and Rodney A. White, MD
This intensive hands-on workshop for endovascular specialists focuses on developing skills to treat endovascular disease. Attendees learn about the transformation of cardiovascular care in the telemedicine era and understand and practice interventional cardiovascular imaging techniques.

12th ANNUAL
Multimodality Cardiovascular Imaging for the Clinician
#MMI2023
Course Director: William A. Zoghbi, MD
Course Co-Directors: Mouaz Al-Mallah, MD; Stephen H. Little, MD; John J. Mahmarian, MD; Miguel A. Quiñones, MD; and Dipan J. Shah, MD
This program features didactic lectures and panel discussions focused on the vital role cardiovascular imaging plays in the management of the cardiovascular patient. Small-group breakout sessions provide an interactive learning experience.

SEVENTH ANNUAL | DeBakey CMR Workshop
#CMR2023
A Weeklong, Hands-on Workshop
Course Director: Dipan J. Shah, MD
This workshop covers the practical applications of cardiac MRI, including basic MRI principles, cardiac anatomy, late gadolinium enhancement, stress imaging, vascular imaging, case interpretations and troubleshooting image acquisitions. The development of practical skills and knowledge will be emphasized. This workshop will be limited to small groups to better facilitate lectures and hands-on experiences. The workshop is designed for cardiologists, radiologists and technologists, and attendees can expect to review up to 50 clinical CMR cases.

FALL 2023 | DeBakey CMR Workshop
#CMR2023
A Weeklong, Hands-on Workshop
Course Director: Dipan J. Shah, MD
This workshop covers the practical applications of cardiac MRI, including basic MRI principles, cardiac anatomy, late gadolinium enhancement, stress imaging, vascular imaging, case interpretations and troubleshooting image acquisitions. The development of practical skills and knowledge will be emphasized. This workshop will be limited to small groups to better facilitate lectures and hands-on experiences. The workshop is designed for cardiologists, radiologists and technologists, and attendees can expect to review up to 50 clinical CMR cases.

FOURTH ANNUAL | CVD Prevention Symposium
#CVDprevention2023
Course Director: Khurram Nasir, MD, MPH, MSc
Integrating recent advances in cardiovascular prevention and management into clinical care can improve patient outcomes and save lives. This interactive, interdisciplinary symposium will feature world-renowned experts who will provide state-of-the-art updates on populations at risk, cutting-edge diagnostic tools, novel therapeutics and the latest research for preventing cardiovascular disease. Participants will be able to apply these contemporary risk assessment and CVD prevention management approaches in their clinical practices.

FIFTH ANNUAL | Vascular Ultrasound and TCD Master Class
#VUMC2023
Course Directors: Zsolt Garami, MD, and Joseph Naoum, MD
This course teaches the fundamentals of vascular ultrasound physics and examination techniques, clinical applications and interpretations. Faculty experts review protocols and lead case-based discussions to build strong basic knowledge. Attendees get hands-on practice performing ultrasound studies on volunteers who have abnormal findings.
For Patients, Families, Caregivers and the Public

JUNE 5-7
IN-PERSON

10th ANNUAL | Preintern Training for Vascular Residents: “Jump Start” Your Training
#PreIntern2023
Course Director: Alan B. Lumsden, MD
This course teaches incoming integrated vascular surgery residents the skills necessary to be functional on the floor and in the OR from their first day. Attendees learn how to gown and scrub, recognize instruments, place central lines, do ABIs, master essential suturing techniques and more. Sessions cover practical topics including algorithms for basic floor issues and emergencies, recordkeeping, and case presentations. Free for qualified registrants.

AUG. 5-7
IN-PERSON

15th ANNUAL
Cardiovascular Fellows’ Boot Camp: Laying the Foundation
#CVBootCamp2023
Course Directors: C. Huie Lin, MD, PhD; Alan B. Lumsden, MD; Elizabeth Herrera, MD; Ross Reul, MD; and William A. Zoghbi, MD
DeBakey CV Education’s signature trainee event prepares incoming first-year fellows to begin their fellowships with a competitive edge. This three-day course packs in ~90 fast-paced lectures and extensive hands-on skills training at over 30 stations. Four separate tracks—cardiac surgery, cardiology, cardiac anesthesiology and vascular surgery—give trainees customized education with world-class faculty from their cardiovascular specialty. Select tracks are broadcast via webcast.

OCT. 25-27
IN-PERSON

NINTH ANNUAL | Open Aortic Training Course
#OpenAortic2023
Course Director: Alan B. Lumsden, MD
This two-day course focuses on open aortic repair training using operative videos, open aortic models and cadavers. It is designed for vascular fellows and PGY5 integrated residents. This course is free for qualified registrants.

For Patients, Families, Caregivers and the Public

FEB. 11
HYBRID

FOURTH ANNUAL | Heart of a Woman
#HoW2023
Course Directors: Karla Kurrelmeyer, MD; and Bindu Chebrolu, MD
This community event focuses on the gender-specific symptoms, diagnosis and treatment of heart disease. Participants tailor their experience in small-group breakout sessions addressing ways women can proactively improve their heart health.

JULY 23
VIRTUAL

FIFTH ANNUAL | Heart Failure Management Conference
#HFMC2023
Course Director: Arvind Bhimaraj, MD, MPH
This conference engages patients, families and caregivers with information and strategies for managing heart failure. Discussions focus on self-care: dealing with diagnosis and symptoms, stress management, exercise, and healthy living and nutrition. This conference is streamed live online and on the spiritual education channel within Houston Methodist Hospital.
Preparation to go live at the DeBakey CV Education studios for The George and Angelina Kostas Research Center for Cardiovascular Nanomedicine’s annual conference, titled “The New Frontier of RNA Therapeutics.”

From left: Cynthia Kostas, George J. and Angelina P. Kostas Charitable Foundation; John Cooke, MD, PhD, Chair of Cardiovascular Regeneration at Houston Methodist; Georgia Kostas, George J. and Angelina P. Kostas Charitable Foundation.
