

Methodist Pathology Associates (MPA), Houston, Texas, is seeking several full-time AP/CP Board-certified pathologists with broad general expertise and experience. Subspecialty training in surgical pathology, cytopathology, or other subspecialty areas in anatomic or clinical pathology is desired. MPA is the exclusive provider of pathology services for the Houston Methodist Hospital System (HMHS) which has eight hospitals (approximately 2,000 beds) in the Houston area: Houston Methodist Hospital, Houston Methodist Baytown Hospital, Houston Methodist Clear Lake Hospital, Houston Methodist Sugar Land Hospital, Houston Methodist West Hospital, Houston Methodist Willowbrook Hospital, Houston Methodist The Woodlands Hospital, and Houston Methodist Continuing Care Hospital. HMHS continues to experience a period of brisk growth and service expansion. Several positions are available at our outlying hospitals. We will also accept applications from individuals who believe his/her expertise and career goals are suitable for Houston Methodist Hospital in the Texas Medical Center.

The successful candidates must be committed to excellence in patient care and have a Texas medical license. The individuals will be part of a large, very collegial pathology group practice that provides outstanding diagnostic services to all hospitals in HMHS. Houston Methodist Hospital has an ACGME-accredited AP/CP residency program, and twelve accredited fellowships. The successful candidates will have a proven track record of providing outstanding diagnostic service, and of working very effectively with departmental colleagues and other medical staff members, laboratory technical personnel, and hospital administration. HMHS has a primary academic affiliation with Weill Cornell Medical College, and the successful candidates may be eligible for a faculty appointment. Opportunities exist for optional collaborative research interactions and other academic endeavors. A competitive salary with excellent benefits is offered, and assistance with relocation can be provided

Interested candidates should email their CVs, and names and contact information of three professional references to James M. Musser, M.D., Ph.D., c/o Liz Al-Ateeqi (liza@houstonmethodist.org), Department of Pathology and Genomic Medicine, Houston Methodist Hospital, 6565 Fannin Street, Houston, Texas 77030.

Our success as an organization is due to the diversity of our team. We are an Equal Opportunity Employer.
